Welcome!

Over the years I have seen dog training techniques advance to the point where we are now able to work with our dogs in partnership as opposed to forcing our will on them. Whilst training to be a Tellington TTouch practitioner it became clear how easy this transition can be using simple techniques and equipment where necessary.

Mekuti started in Cornwall in 2004 initially supplying other TTouch practitioners in the UK and now operates from West Yorkshire supplying dog trainers, behaviourists, rescue centres, and the general public worldwide with specialist equipment designed to help you and your dog with wide-ranging issues. All equipment is designed to work with your dog gently and comfortably and will have been thoroughly **tested on animals**, either Meg or Heidi, our constant companions!

All of the Mekuti branded products are currently made in the UK which enables us to get the best quality and also means that we can make any changes quickly. The packaging is simple and products come with full instructions, and we are available during office hours to help with any queries or specific advice. Mekuti was named after Meg, Kugel and Tigger (my furry friends) and research revealed 'Mekuti' was also the name of a Buddhist monk, which reflects my belief in gentle consideration for all life.

Our 30 day guarantee stems from the cupboard full of unused dog training equipment I had acquired over the years prior to TTouch! If it doesn't suit your needs just send it back (clean) and you will receive your money back, and if able I'll help you to find a suitable alternative.

I hope that you find what you are looking for. Happy browsing.

The Mekuti Balance Harness™

The Mekuti Balance Harness:

- **Stops pulling** on the lead
- **Improves control** and enjoyment of walks
- **Reduces stress on joints** and anxious on-lead behaviour
- **Good for any age group** from puppies through to old age
- **3-way adjustment** ensures a fit which is comfortable
- **Patent pending design** by Tellington TTouch Practitioner and made in the UK.

30 DAY MONEY BACK GUARANTEE

How does the Balance Harness Work?

The patent pending **Mekuti Balance Harness™** uses two points of contact with a Double-Ended Lead. This allows you to withdraw one of the balance points when the dog pulls. They have nothing to lean into and are then unable to pull.

In use, the harness works in harmony with your dog, not in conflict. It does not tighten across the dog's body, neck or head or cause any distress.

NOTE: A DOUBLE-ENDED LEAD IS REQUIRED

It is fully adjustable to give a close, comfortable fit with no pinching or rubbing and is very difficult to reverse out of (tested on sight-hounds!). The seams are external on the chest for dogs with sensitive skin.

"It's a really kind way to teach your dog to heel and I have recommended it to others. I really like it as he doesn't choke himself on it and he didn't take to a (head halter) at all."

Woody & Hannah Wemyss

Available colours: Black, Red, Royal Blue, Dark Green, Purple, Navy Gypsy and Emerald Gypsy (diamond pattern in 2 or 3 narrow stripes).

Calming Equipment

Help with:

- Sound sensitivity – thunder and fireworks, general anxiety;
- Shyness;
- Ageing issues, mobility or travelling problems;
- Hyperactivity or panic.

Body Wraps

A **Body Wrap** brings an animal's awareness to its body and away from the source of the fear (e.g. thunder, fireworks). The sense of security given by the wrap also brings confidence, releasing habitual responses and behavioural patterns, allowing them to observe the world around them and respond rather than react to stimuli. *Like a portable hug.*

The wrap comes with a nappy pin to secure and full instructions.

NB. A dog should never be left unattended in a Body Wrap. If you need the calming effect while your dog is on its own, consider getting a T-shirt or a Jumper as well which has an almost equal effect. (See pages 8 and 9)

Small	2"	£8.25
Medium	3"	£8.75
Large	4"	£9.75

My poor dog was stressed out

"I am absolutely in shock as to how well the Body Wrap works. We have had a week of thunder and fireworks and I have now used it four times on my rescue dog. Every time within 5 minutes he was asleep. I am so grateful it has worked so well. My poor dog was stressed out for 7 hours every time there was a storm; if it was at night it was impossible for me to get any sleep. I did not ever expect this to work!"

Calming Bands

Calming Bands may help with:

- Barking or chewing
- Emotional upset
- Shyness
- Sound sensitivity
- Fearfulness

This band works best in conjunction with Tellington TTouch to address any underlying causes of tension in the mouth.

Gives feedback when the dog barks by making gentle contact around the muzzle without restricting movement or tiring the dog. Many dogs bark from habit and this simple way of bringing awareness to what they are doing is often enough to quiet them. The contact with the face has a noticeable calming effect.

Measure in a figure of 8 around the muzzle, cross under the chin and up beneath the ears.

She stands like an angel

"Absolutely brilliant! It's so gentle. My Beardie normally barks out on walks, but now there's not a peep from her. She would bark for her tea, but now she stands like an angel. Her mum would wind her up making her bark, & that has stopped too! I can't believe it!"

Mrs. H. Hands

Now I can hear the trainer talking!

"My 7 month old puppy mainly tends to bark at dog training. So much so that I can't hear the trainer talking. So, I bought a Calming Band for the puppy and I'm really pleased with it. It is quick to put on him and calms instantly. He is gradually getting used to wearing it and lasttime he wore it he actually fell asleep in a busy room full of people."

HOTTERdog Jumper

Protect your dog from the worst of the weather, keep them dry or just for calming during cold weather.

- Water repellent and wicks moisture away from the dogs body keeping them dry during exercise, or dries them after exercise.
- Maintains good body temperature so reduces the chance of overheating.
- Customers have noted the same calming and anxiety reducing effects as our T-Shirts and Body Wraps.
- Comfortable and washable.

Made from EqualX, a premium grade, medium weight fleece by Equafleece. Available in Black, Green, Royal Blue and Red

Highly recommended by Meg and Heidi!

Coat of Confidence!

"Portia loves her Hotter Dog Coat of Confidence! It not only keeps her toasty warm on her morning walk, it helps her shyness with other dogs."

Angela Walledge

Heart problems

"My vet really loves the Hotterdog jumper as it covers Moke's chest and apparently that's best for his heart problems."

Leg Wraps

- Brings awareness to the legs and feet
- Improves gait irregularities
- Raises the foot action and reduces knuckling
- May help de-sensitize legs/feet for nail trimming.

Sold in pairs. Colours vary.

Popular with owners of show and agility dogs because poor awareness of legs may make dogs appear to be quite clumsy and generally lack confidence. Leg Wraps can enable them to reconnect the body with the brain and improve integration and accuracy of movement. This sense of reconnection lasts even after the wraps have been removed.

Even though we make contact with most of the dogs torso, head and neck in daily handling through stroking and brushing, it is only when we need to handle the feet and legs for something like nail-clipping that we really notice their sensitivity to touch in these areas.

Sensitive use of Leg Wraps combined with TTouch may be of benefit.

*people have said some great things about the
Mekuti Balance Harness:*

Such a joy to take out!

"I cannot believe this has really worked. My 13 month old chocolate labrador is now such a joy to take out on the lead. I was getting fed up of being pulled around like a rag doll and getting quite worried that I wouldn't be able to hold her ... and then this arrived and every walk since has been fantastic! Even with friends and other dogs she stays calm and is a joy to walk."

A. Lakey

I would not have believed the difference

"Many thanks for the Balance Harness, it has taken all the hassle out of our walks with our cavalier. She is very strong and pulled continuously. I would not have believed the difference when we started to use the harness, now she walks calmly along at heel and we can all enjoy it. Thank you!"

G. Ottaway

Excellent products

"Thanks again for the excellent products. I run a variety of classes and almost everyone from puppies to reactive dogs end up using the Mekuti Harness"

Morag

It gives him confidence

"I bought one of these for my lurcher puppy and wouldn't be without it. He doesn't pull and it gives him confidence which he is very short of."

S. Schick

Eye contact

"Tried the new harness on Katie and what a difference! We're even getting eye contact! I'll let you know if I need any more help with it, but so far I am very happy."
